FIDEL HELD BLAME IN KENNEDY DEATH

Dr. Carlos Bringuier, New Orleans delegate of the Cuban Student Directorate, has wired President Lyndon B. Johnson saying America should be told about what he called "Fidel Castro's participation" in the assassination of President John F. Kennedy.

The telegram claimed Lee Harvey Oswald was executed before public opinion could focus against Fidel Castro "as the man responsible for the Kennedy killing."

Student Directorate Delegate Gets Word

Jack Ruby was in Cuba as late as last year, a New Orleans delegate of the Cuban Student Directorate asserted Monday.

Ruby is charged in Dallas, Texas, with slaying Lee H. Oswald, accused assassin of President John F. Kennedy.

Carlos Bringuier said Monday he was informed by the Miami headquarters of the Cuban Student Directorate that Ruby was in Cuba at the end of 1962 and the beginning of 1963.

He said a message was sent last week through the organization's radio program on WRUL in New York City to the group's agent in Havana named "Chavela."

The agent was asked to confirm or deny that Ruby had made a trip later than one in 1959 which was made known previously. The 1959 trip was reportedly an attempt by Ruby to negotiate a jeep trade deal.

The agent said, according to Bringuier, that Ruby arrived in Havana at the end of 1962, flying from Mexico, and stayed in Havana until January, 1963.

The agent reported that Ruby frequently visited a tourist store on the Paseo del Prado that was located immediately in front of the Hotel Sevilla.
